Work Experience

Accenture, Kolkata

Sep 2023 - Present

Application Development Analyst

- Working as an SAP CPI Developer, helping the business to evolve into a modern, scalable, and secure integration ecosystem by understanding the business needs and building new solutions. Also contributing to keeping the existing interfaces working, updated and well-monitored.
- Managing the full development lifecycle (development, testing, documentation, go-live and post-deploy hyper care) with Scrum master's help.
- Instrumental in different adapters involving OData, AMQP, REST, SOAP, HTTP, Mail, SFTP, JDBC, ProcessDirect, RFC and IDoc in CPI.
- Good understanding of security and encryption standards such as OAUTH, SSH, TLS, SSL, PGP etc.
- Good Experience in implementing, configuring, and customizing SAP adapters, User-Defined Functions, and mapping routines.
- 8 End to End full cycle implementation and 3 support projects experience in CPI.
- Experience in integrating with third-party, on-premise, and cloud-based enterprise application
- Expertise in working with CPI pallet functions.
- Expertise in working with File based and API Integrations.

Accenture, Kolkata
